

SOLUTION OVERVIEW

Unlock new levels of nursing excellence with Press Ganey

Press Ganey's **Journey to Nursing Excellence solutions** help nursing leaders easily track their performance across key nursing metrics, meet data requirements for the Magnet Recognition Program®, and implement transformational strategies to improve key areas needed for designation.

Access to the collective expertise of 50+ RNs and APRNs, with an average of 20 years of clinical and executive leadership experience.

Unmatched depth of nursing quality data, complete with unit-level benchmarks that enable you to make precise, performance-driven comparisons.

A 360-degree approach that tackles every aspect—experience, patient safety and outcomes, workplace safety, leadership development, staff retention, and more.

More than **97%** of Magnet® designated organizations are a Press Ganey partner.

Magnet® is a trademark of ANCC registered in the United States of America and other jurisdictions and is being used with consent from ANCC. All rights are reserved by ANCC

KEY FEATURES

- **Aggregated experience, quality, and safety data:** Comprehensive view of performance trends to identify areas for improvement and make informed decisions to enhance patient care. By consolidating data across units, nursing leaders can benchmark their performance against national standards, fostering a culture of accountability and continuous improvement in both patient outcomes and workplace safety.
- **National Database of Nursing Quality Indicators (NDNQI):** Encompasses diverse nursing-sensitive indicators and national benchmarking data. This critical information fuels informed strategic decision-making, ultimately driving improvements in the quality of care provided.
- **Nursing Intelligence:** AI-driven Magnet® reporting capabilities that offer submission-ready graphs to make it seamless to apply for Magnet® designation
- **Listening through digital communities, crowdsourcing, and focus groups:** Gather innovative ideas and hear feedback directly from your team on ways to enhance your initiatives.
- **Expert consulting:** Available to guide you in various ways, including Journey to Nursing Excellence/Magnet® Support, Magnet® Support for Data Management, Pathway to Excellence, Gap analysis, and Magnet "Big 5" secondary analyses.

AI to make your job easier

Nursing Intelligence in NES leverages sophisticated algorithms to identify areas of outperformance and generate submission-ready reports, saving your team from the time-consuming task of manually analyzing and compiling data.

"The report is a **huge time saver** for determining the organization's outperforming four categories for the Magnet® application."

Kathleen Yhlen, MSN, RN, NE-BC
